Recognition of Degree

The Armenian degrees are globally recognized worldwide. They are recognized by The Ministry of Education and Science, the National Medical Commission of India, the World Health Organization, and so on. The National Medical commission of India recognizes only the courses offered by those medical institutions which are listed by the WHO (World health organization) in the world directory of medical schools. Note should also be made that many Indian private medical universities are still not recognized by WHO. Indian Students seeking admission in medical courses in Armenia through Armenia education will be admitted only to those Universities whose degrees are recognized by WHO and the National Medical Commission of India.

NEXT License Exam:

National Exit Test (abbreviated as NEXT) is an examination for all the MBBS students in India, which requires passing the final year and obtain a license to practice medicine. In 2021, the National Medical Commission (NMC) amended the regulations of foreign medical graduates (FMGs), which stated the requirement for the Foreign Medical Graduate Exam. From 2023, the requirement for overseas graduates is to qualify for the new National Exit Test (NEXT) in place of the Foreign Medical Graduate Exam (FMGE). Candidates intending to practice in India will have to clear NEXT within two years of completing their medical studies abroad. As per NMC, the mock test of NEXT will take place in 2022.

Qualifications and Eligibility

The general eligibility guidelines for Indian students wanting to pursue MBBS among the top countries overseas are as below.

- The student is required to have attained the age of 17 on December 31 of the year he is pursuing his admission. There is no upper age limit to apply for MBBS abroad.
- The student must have completed his 10+2 from a recognized board.
- The student must have an aggregate percentage of at least 50% or above in Physics, Chemistry, and Biology and must have studied English as a compulsory subject during his 10+2 years.
- Students are also required to qualify for the National Eligibility-cum-Entrance Test (NEET). This is mandatory even if the student is planning to pursue his medical studies abroad.
- The candidate would also be required to produce an Eligibility Certificate issued by the Medical Council of India at the time of admission to Foreign Medical Universities.

Duration and Medium of Teaching:

The duration of the medical course will be for a total period of 6 years. MBBS education will be taught in English Medium during the period of study.

Yerevan
GLADZOR University

GLADZOR University is one of the famous medieval Armenian universities, founded in the year 1291. The University was operated in Gladzor village of Yeghegnadzor region of Vayots Dzor region by Nerses Mshetsi until 1340. Gladzor University had an internal charter and academic degree. By its nature and inclination, it resembled a university of social sciences. The University taught theology, philosophy, rhetoric, arithmetic, and astrology. Yerevan Gladzor University (YGU) (till 2006 called Gladzor Management University) was founded in 1990, restoring and pursuing the rich intellectual heritage of the great medieval Armenian University of GLADZOR. Within 30 years of its management, the University has been consistently and firmly implemented an educational-academic procedure in compliance with international standards.

Student life at YGU

Ensuring student-centered teaching at the university, ensuring students' involvement and participation in decision-making at the university, active organization and conduct of student life, the university has a number of departments / bodies, such as the Student Council , Student Scientific Society , Career Center , Educational Advisory Service , etc.

Acheivements

Gladzor University of Yerevan was awarded letters of thanks, diplomas and gold medals for its contribution to education . Thus, at the Ninth International Forum “High Quality in Business” held in Geneva in 2005, Gladzor University was awarded a gold medal by the International Fund of the same name for “High Quality in Work”, as well as a certificate of Gladzor University membership in the fund’s declaration. YGU to Mr. argevatrvel Prime Minister medals, gold medals Ministry of Education, etc.

Faculty

The teaching staff of the University is composed of doctors with great contributions to science, experienced doctors, professors, and other specialists with deep theoretical and practical skills in the field. In recent years, the teaching staff of the university has been regularly replenished with Gladzor graduates who have defended their PhD theses.

Infrastructure

Labs:

Medical students are provided with the best facilities in all the laboratories. University has well-ventilated and well-equipped Laboratories, which are regularly updated with advanced equipment. The theoretical components are well linked with practical inputs. Regular demonstrations in the labs provide a strong foundation and enhance learning. The following Labs are available for student's practice as per the Education ministry norms.

Basic Sciences Laboratories:

- Anatomy
- Physiology
- Microbiology
- Biochemistry
- Pathology.

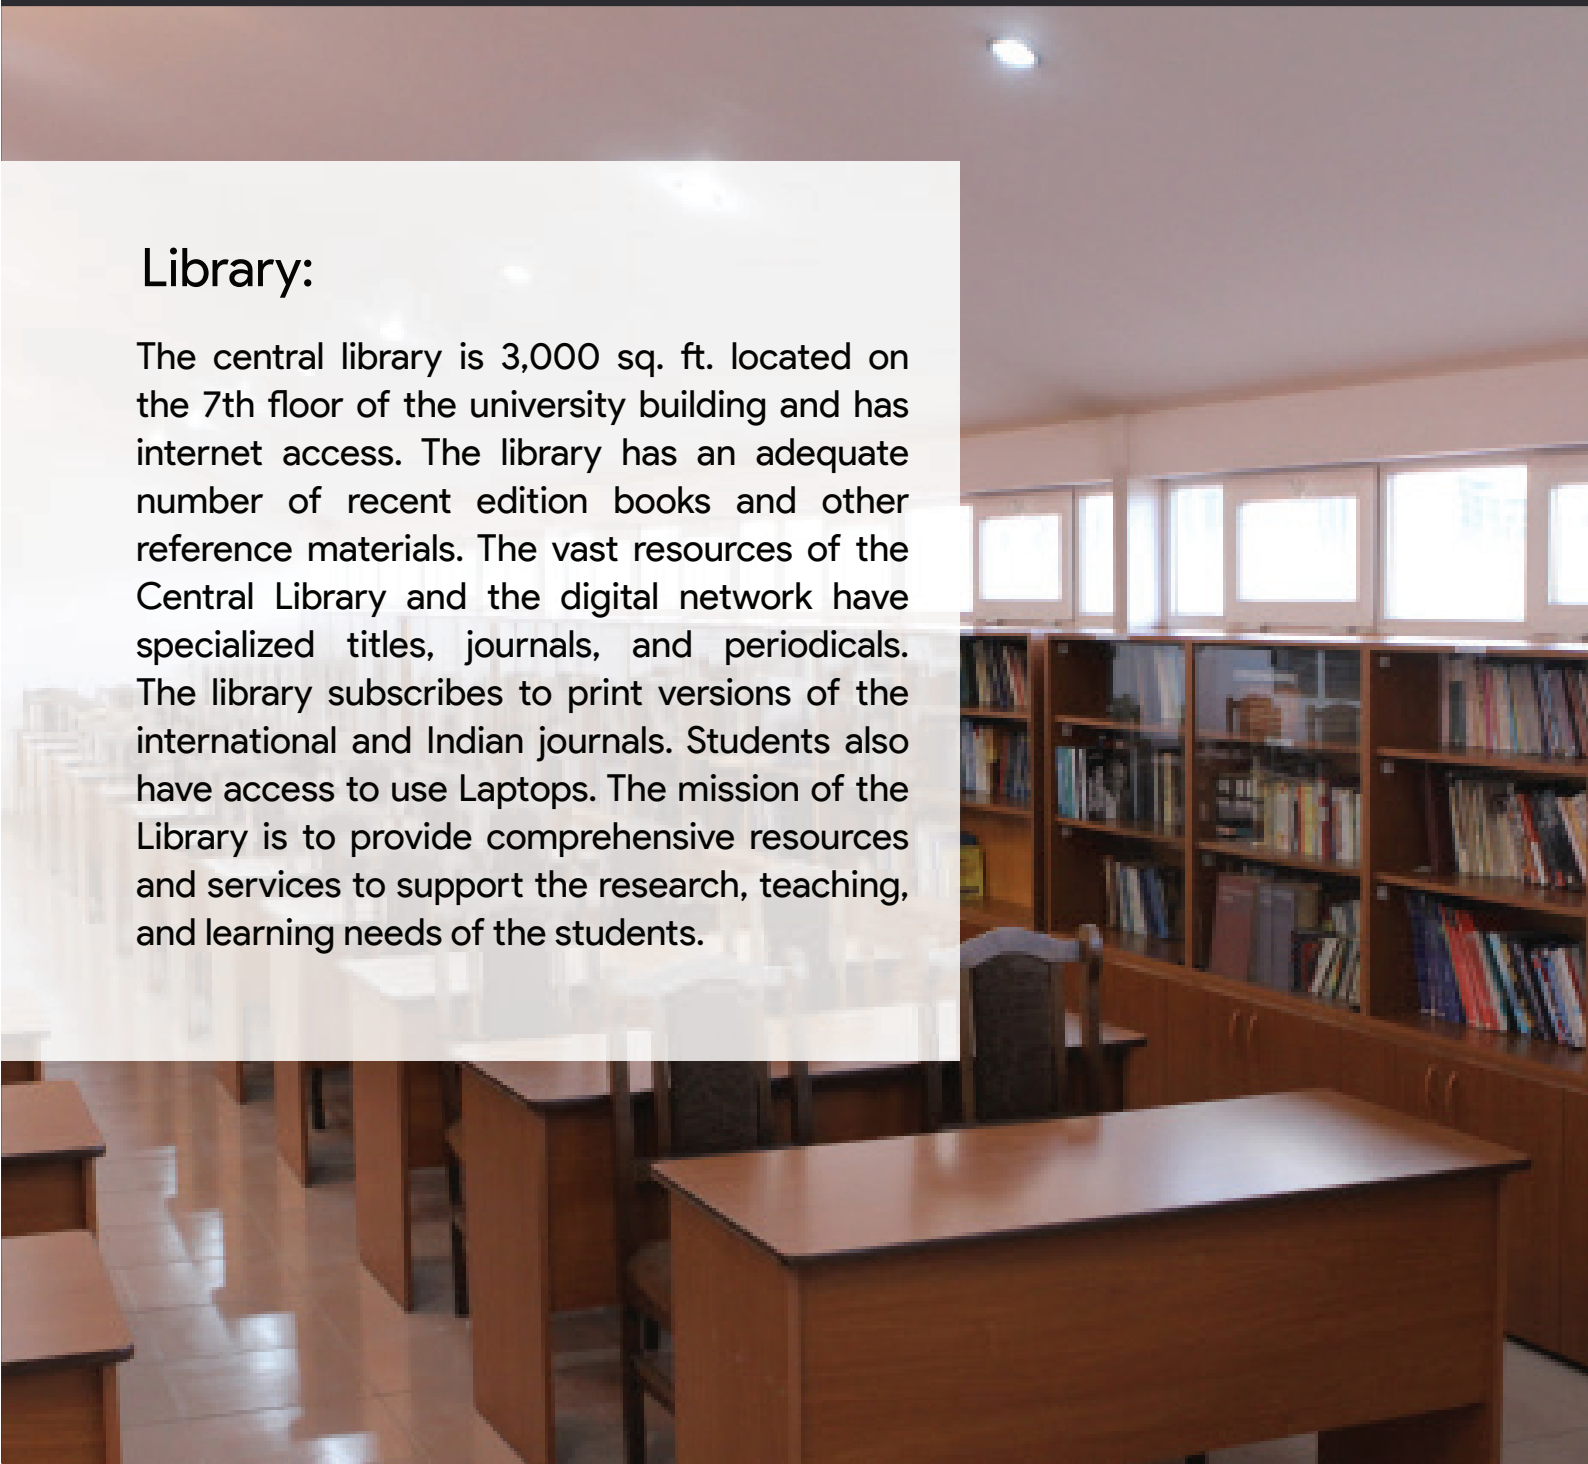
At present, the medical university occupies the first, fifth floor and administration on the ground floor of a seven-story building.

Lecture Halls:

Adequate numbers of spacious, well-ventilated, well-lit and digital Lecture halls with comfortable seating arrangements are available.

3D Education Hall:

Revolutionizing the education system with 3D education, a lecture hall with a fully 3D system where students can gain knowledge with a visual representation of human anatomy.



Library:

The central library is 3,000 sq. ft. located on the 7th floor of the university building and has internet access. The library has an adequate number of recent edition books and other reference materials. The vast resources of the Central Library and the digital network have specialized titles, journals, and periodicals. The library subscribes to print versions of the international and Indian journals. Students also have access to use Laptops. The mission of the Library is to provide comprehensive resources and services to support the research, teaching, and learning needs of the students.

Hostel facility:

It is situated nearby the campus. The rooms are well ventilated and well furnished with heaters for winters. The available Facilities are - WiFi network system that is accessible to every student, 24×7 coffee, and Laundry machines. Hygienic Indian food is served in the dining hall. Qualified Indian wardens take care of the students and provide special attention to the students when unwell.

Hospital:

For students' clinical practice, YGMU has associated with Armenia Republican Medical Center. It has a high reputation in Armenia and provides a wide range of medical services. Hospital is equipped with modern medical technologies and has experienced doctors as teachers. During the practical part of studies, students go to those hospitals and get real-life experience. This is an important factor for future doctors to be close with future employers.

Indians in Armenia:

More than 3000 Indian Students are currently studying MBBS in Armenia, and all of the MBBS universities are situated nearby to each other in Yerevan, Armenia.

Indian Market in Yerevan:

An Indian fair offering a great variety of “exotic” items for those who are fond of bright colors – from Indian ornaments, fabrics, and clothing to make-up and cosmetic means and even Indian furniture – has been on in Yerevan.

Indian Grocery Store in Yerevan:

- Unicorn Impex.

Indian Restaurants in Yerevan:

- Karma Indian Restaurant
- Indian Mehak Restaurant
- Shanti Tea House & Shop
- Mihul Indian Restaurant
